Education

- B. Sc. in Software Engineering, Shahjalal University of Science & Technology.
 - Feb 2023–May 2027 (Expected) • CGPA: 3.62/4.00 (Up to the 6th Semester)
- College : Notre Dame College, Dhaka

Skills

- **Languages:** C/C++ • Java • JavaScript • Python • Dart • SQL • Golang
- **Frontend:** React • Next.js • Tailwind CSS • Flutter
- **Backend:** Golang • Gin • Node.js • FastAPI
- **Database:** MySQL • PostgreSQL
- **DevOps & Tools:** Docker • Docker Compose • Git • GitHub • Postman • MCP

Experience & Competitions

- **Finalist** in SUST IUPC 2024.
- **5th Place**, Project Showcase, UIU CSE Fest 2025.
- Ranked among the **Top 250 teams** in ICPC Asia Dhaka Regional Preliminary Contest 2025.
- **800+** Problems solved in Codeforces, Codechef, Atcoder.
- Leetcode Top Interview 150 solved, SQL 50 solved.

Projects

AgentFlow - Multi-Agent Task Orchestration System

Go, MCP, React, Groq/Gemini APIs

- Built a multi-agent orchestration system in Go with custom agent loops, specialized sub-agents and developed a custom MCP server using the Go SDK.
- Deployed Groq and Gemini APIs with failover support and designed a React UI with live agent activity streaming.

TweetAI — AI-Powered Twitter Clone

Go, PostgreSQL (pgvector), Redis, Ollama, WebSockets, React

- Engineered a Twitter-style platform in Go with a hybrid Redis-backed timeline and live WebSocket updates.
- Implemented an embedding-based “For You” feed using Ollama, pgvector, and hybrid ranking.

Personal RAG — Document Q&A System

Go, Ollama, PostgreSQL (pgvector), JavaScript

- Architected a self-hosted RAG pipeline in Go (PDF ingestion → chunking → embeddings → pgvector storage) with a REST API and JS frontend for grounded, LLM-generated answers.
- Designed a fully local architecture using Ollama for embeddings and generation — no API keys or cloud costs.

Durjog Sathi — Disaster Management App

Flutter, Firebase Auth, Cloud Firestore, Google Maps APIs

- Developed role-based dashboards with real-time GPS tracking, route navigation, rescue requests, and flood/weather alerts.
- Implemented push-based rescue requests and WebView modules for live flood and weather alerts.

Leadership & Achievements

- **1st Runner-Up**, Hult Prize at SUST, 2025.
- **4th Place**, Mastermind 2.0 – A National Case Competition.
- Executive Member, SWE Society, SUST.
- Vice President, Jamalpur Association, SUST.
